

May 26, 2008

Dear Participant:

Thank you for your participation in the Palestine Investment Conference 2008. It was our pleasure to welcome you to Bethlehem and to what was a first of its kind event.

We hope that your time in Palestine met your every expectation and that you left Bethlehem with a better sense of the opportunities that exist for private investment and growth. From the projects that were presented during the individual sessions to the capabilities highlighted during the Exhibition, we hope that you found inspiration in skills and entrepreneurial spirit that is so central to Palestine.

We hope as well that you had the opportunity to explore Palestine on your own during your visit, whether through the organized side events or your own travels. The warmth of the Palestinian people speaks for itself.

In the months and weeks ahead we will look forward to remaining in touch with you and continuing the dialogue that was started in Bethlehem. Please do not hesitate to reach out to us via [www.pic-palestine.ps](http://www.pic-palestine.ps) should you have any questions or need additional assistance.

The Palestine Investment Conference was intended as an introduction to Palestine and as a platform for sharing business ideas, forging partnerships, and encouraging the development of a continuing dialogue between the Palestinian public and private sectors. We hope that you experienced each of these elements during your time with us.

Only through partnership with our Arab, regional and international supporters will Palestine achieve sustainable economic growth – a key building block of sustainable peace. Your attendance at this conference was a valuable demonstration of your support for Palestine's sound future.

We greatly welcomed your participation in this conference, and we look forward to welcoming you back to Palestine again soon.

Mohammad Kamal Hassouneh  
Chairman of the Organizing Committee
